FAQ

Where to find ...

Restricted Classes and Properties	The restricted Class is named **Event Alternative** and is a subclass of **Event**. The restricted property is named **Alternative Description** and can be found in the classes **Book**, **Book Chapter** and **Character**
Standoff links	Standoff links are situated in the **Class Event** , in the property **Description,** for most of the instances (exceptions: events of subclass **Event Alternative**).
Regions	The regions are drawn on aldl **Images** where the White Rabbit and the Flamingos appear (their names are mentioned in the label of the images). Both characters are highlighted in separate colours.
Video segments	Video segments can be found in the class **Videos.** See following resource instance: • "Alice in Wonderland 1915" (V_01).
Audio segments	Audio segments can be found in the class **Audios.** See following resource instances: • "Dramatis Personae" (A_01) • "Down the Rabbit-Hole" (A_02)
Multiple cardinality text properties	Text properties with multiple cardinality can be found in the class **Location**: the property **Description** contains the description in 4 languages, each of them being a separate instance of the property.
Footnotes	Footnotes can be found in the class **Character**, in the property **Description.** See, among others, following resource instances: • "Alice" (CH_001) • "Jabberwock", (CH_026)
Comments	Comments can be found in the class **Book Chapter**, in all the resources that are not a real chapter, as comment to the property "Description". See following resource instances: • Poem "All in the Golden Afternoon" (BCH_001) • Dramatis Personae and chessboard (BCH_014)
